## MESSAGE

Our ref: PAT 02/162

Your ref: E-mail, Thu 21/11/02 12:02 (and further telephone conversations)

This is in response to your enquiry relating to the public availability of the following item:

D4 → British Journal of Cancer  
Vol. 56 Number 4, October 1987  
Page 511 – mid article of meeting report, 'Advances in the applications of monoclonal antibodies in clinical oncology'. University of London Royal Postgraduate Medical School, held at the Wolfson Inst., 6-8 May, 1987

S: 70 According to our records, this item was received by the British Library Document Supply Centre on 27th October 1987 and would have been available for public use from that date. Please note we are unable to supply a photocopy of the page showing this date as BLDSC no longer holds this copy in stock. We have a replacement copy but the receipt date has worn off.

I have consulted Conference Index ((Conference Information Line (01937 564158))) on your behalf (decided it would be quicker rather than you phoning). BLDSC holds the full proceedings in the following journal:

01937 546453

## International Journal of Cancer, Supplement 2, 1988

(BLDSC 4542.1561)

According to our records, this item was received by the British Library Document Supply Centre on *23<sup>rd</sup> March 1988* and would have been available for public use from that date.

Regards

Michael Payne (If this copy is illegible, please call 01937 546172)
